In this moment of social distancing, we want to provide you and the DPI IMW Account Executive staff the opportunity to share your products, promotions and ideas for the continued growth and exposure to your business. Though we're not able to meet with you in person, we have designed a virtual platform that will give you and our staff the ability to share products and ideas.

Using Zoom, we will assign you and our staff video conferencing appointments. The format will consist of 15 minute scheduled meetings which will allow for a personal introduction, product and promotional details.
